

Stephanie Shinn

IAM Engineer | PKI | Post-Quantum Cryptography

Chanhassen, MN | [linkedin.com/in/stephanie-s-shinn](https://www.linkedin.com/in/stephanie-s-shinn) | github.com/ShinnDing

PROFESSIONAL SUMMARY

IAM Engineer with a background in identity engineering, PKI, and security automation across enterprise cloud environments. Experienced in SSO integrations, CI/CD pipelines, and operational support for identity platforms. IEEE-published researcher focused on post-quantum cryptography and securing real-world systems against emerging threats.

SKILLS

Identity, Security & Cryptography: IAM, SSO (SAML, OIDC), PKI, Quantum-Safe PKI / PQC, Security-as-Code

Cloud Identity & Enterprise Tooling: Microsoft Entra ID, Microsoft 365, AWS, Active Directory, Keyfactor, Sectigo, Jira, HashiCorp Vault, Datadog, SailPoint

Automation, CI/CD & IaC: Vela, GitHub Actions, Go, Terraform, Docker, Podman

Programming & Scripting: Go, Java, JavaScript, Python, Bash, PowerShell, JSON, YAML

Applied AI / Data Analysis: Jupyter, Scikit-learn, LLM workflows, local and hosted LLM tooling

Web & Creative Tools: HTML, CSS, Astro, Starlight, Adobe Creative Suite

PROFESSIONAL EXPERIENCE

IAM Consultant (IAM Engineer)

Cargill, Inc. — Wayzata, MN (Remote) | Aug 2025 – Present

- Materially contribute to PKI migration to PKI-as-a-Service (PKIaaS).
- Code tooling in Go to support Infrastructure-as-Code (IaC) for IAM platforms.
- Implement automation across identity platforms, including PKI, authentication, and authorization.
- Collaborate with cross-functional teams spanning IAM products and platforms, Cloud Security, Application Risk Management, and Data Engineering.
- Mentor junior engineers on identity and security best practices.

Associate IAM Consultant / Platform & Infrastructure Engineer

Cargill, Inc. — Wayzata, MN (Remote) | Oct 2022 – Jul 2025

- Built and maintained CI/CD pipelines (GitHub Actions, Vela) supporting IAM tooling and operations.
- Resolved SSO integration and authentication issues for SAML and OIDC applications.
- Managed PKI certificate lifecycle operations.
- Developed internal API libraries.
- Authored SOPs to standardize IAM operations.

EDUCATION & RESEARCH

M.S. in Computer Science

Metropolitan State University | Dec 2025 | GPA 3.88

Thesis: CRYSTALS-Kyber KEM Decapsulation with Single-Point Pseudo-Random Cache Flushing

Published Research (IEEE)

"CRYSTALS-Kyber KEM Decapsulation with Single-Point Pseudo-Random Cache Flushing" — Presented at VCRIS 2025, Hanoi, Vietnam (Oct 2025)

Impact: achieved a 0% side-channel attack success rate (100% attack prevention) in a vulnerable cloud environment, with a 6.2% performance improvement.

PROFESSIONAL DEVELOPMENT

Organizations: PKI Consortium, Cargill Women in IT, Cargill Women's Network, Cargill Young Professionals Network, National Society of Leadership & Success

Conferences: VCRIS 2025 (Hanoi, Vietnam); Open Source North 2025 & 2026 (St. Paul, MN); Keyfactor Connect 2026 (Philadelphia, PA)

Training: Udemy – Java Programming Masterclass; LinkedIn Learning – Go Programming, Azure DevOps, REST APIs, HTML/CSS
